The Piers Project: A Cyber Safety Initiative
Did you know...

- In 2016, **67% of Americans** 65 and over were using the Internet.

- **Only 1 in 24 cases of elder abuse** are reported.

- In 2017, older adults lost **$1.7 billion to financial abuse**.

- **45% of financial abuse** begins through the use of the Internet.

- **59% of people** say they are unsure if what they see in the media is true.
What is **Online Safety**?

**General Internet Protection**
What are some examples of cyber fraud?

Healthcare Scams    Lottery Fraud    Charity Fraud
Tax-related Fraud    Investment Scams

What do they have in common?

• Unsecurely accessing your personal or financial information.
• Rushing you through a decision.

Preventative measures:

• Take it slow.
• Ask as many questions as you need.
• Verify with other information or people.
• Ask for more information.
• Do some research.
Practice the 3 keys to Cyber Security:
QUESTION things you see online
CHECK for validity
ASK around

Securing your Smart Devices:

- Don’t share your passwords
- Change and update your passwords
- Disable features you may not need
- Secure your router and WiFi network
How much information should you share online?

@illdill

My dad takes pictures of the dogs at the houses he works on and posts them on his business' Facebook page as employee of the week.

Stairs fixed and usc elevated hardwood floors
February 4

This week's Employee of the Week. Her name is "Paulie Girl." She usually would hang with me... until the sanders turned on! Great girl!
How to Spot Fake News

Consider the Source
Click away from the story to investigate the site, its mission and its contact info.

Read Beyond
Headlines can be outrageous in an effort to get clicks. What’s the whole story?

Check the Author
Do a quick search on the author. Are they credible? Are they real?

Supporting Sources?
Click on those links. Determine if the info given actually supports the story.

International Federation of Library Associations and Institutions (IFLA)
How to Spot Fake News

Check the Date
Reposting old news stories doesn’t mean they’re relevant to current events.

Is It a Joke?
If it is too outlandish, it might be satire. Research the site and author to be sure.

Check Your Biases
Consider if your own beliefs could affect your judgement.

Ask the Experts
Ask a librarian, or consult a fact-checking site.

International Federation of Library Associations and Institutions (IFLA)
Practice the 3 keys to Cyber Security:

🔑 QUESTION things you see online
🔑 CHECK for validity
🔑 ASK around
Malware is a type of software designed to gain access to or damage a computer. (True or False)
When it comes to online shopping, you can safely shop from any site.

(True or False)
When you create passwords, you should make them easy to guess.

(True or False)
When I become the victim of a cybercrime, I should share my experience with the people around me.

(True or False)
If It’s Too Late, What to Do?

Detect fraud

Alert caregivers, family members, and community staff

It is time for a change

Report immediately
Pass-It-On
