

## CENTER FOR INNOVATION AND WELLBEING

### QuietCare Case Study

### **New technology supports experienced staff.**

Front Porch has introduced the advanced motion-sensor technology of [Intel-GE Care Innovations™ QuietCare®](#) at its [Summer House at Wesley Palms](#) memory care neighborhood. Representing a new standard of memory care support, the Front Porch Center for Innovation and Wellbeing combined this latest sensor technology with excellent staff training to create a level of attentive care that

recognizes and responds quickly to changes in resident's patterns.

With the QuietCare® motion-sensor technology, staff members can identify residents' daily activity patterns. When the staff notice a change in a resident's behavior pattern, or the system detects particular sensor signals, the equipment can then alert caregivers to potentially urgent situations. Responsiveness increases, which in turn improves care overall. The technology is used as a tool to significantly improve staff response time to attend to the personalized aspects of each resident's needs. This is a particularly effective tool in memory care settings.

### **About the Front Porch Center for Innovation and Wellbeing**

The Front Porch Center for Innovation and Wellbeing is part of Front Porch®, one of Southern California's largest not-for-profit providers of retirement living communities and affordable housing. The Front Porch Center for Innovation and Wellbeing strives to harness technology solutions that support and enhance wellbeing in older adults. The Front Porch Center's core initiatives focus on how technology can: assist in maintaining brain health; enhance social connectedness; promote engagement and growth; empower control over health and wellness; prevent emergencies or serious events; and increase resources and support for formal and informal caregivers. The Front Porch Center for Innovation and Wellbeing is a signature program of Front Porch's Humanly Possible® commitment to doing everything humanly possible to creatively meet the needs of those we serve today and in the future. The Front Porch Center is the

winner of the Bronze Award for the Dignity category in the 2015 McKnight's Technology Awards and the Aging 2.0 Pilot Pioneers 2015 Innovation Award. More information can be found at [www.fpciw.org](http://www.fpciw.org).
